The batteries were removed from combined with other substances of still greater their former position. for the diseases Sarsaparilla is reputed to cure. Gen. Butler issued an order prohibiting visitors It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and A steamer will bring a number of fugitives from that one which will accomplish their cure must prove of immense service to this large class of our Craney Island and the main land bristle with afflicted fellow citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of

TIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPIHILITIC AFFECTIONS, MER-CURIAL DISEASE, DROPSY, NEURALGIA OR TIC-DOULOUREAUX, DEBILITY, DYSPEPSIA AND INDI-GESTION, ERYSIPLEAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaint arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of the remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all wel; but with this pabulum of life disordered there can be no lasting health. Sooner or later something must go wrong, and the great ma-chinery of life is disordered or overthrown. Sarsaparilla has, and deserves, much the repu

Where he will be happy to meet all those afflicted without kind of disease-and comidered incurable by other Where he will be happy to meet all those afflicted withany kind of disease—and considered incurable by other practitioners. His remedies are only those which nature has so bountifully provided us with. In the treatment of disease he rejects the use of all poisonous drugs and minerals. Instead of enfechling the system he invigorates, that nature may be able to expel the disease. It is to the knowledge of those great secrets that he owes his rucces; and in using which he defies all the Medical Faculty on the Continent to compete with him. All those who are suffering from Lung Diseases of whatever nature, are particularly desired to call, as one-half of the cases of consumption that are pronounced incurable by the Medical Faculty, and considered hopeiess, are readily enred, and yield at once to his mild plan of treatment, from the very fact that not one physician in twenty have the proper instruments for examining the lungs, and those who have, are very few of them capable of Judging the amount or kind of disease to which the lung is subject. He has cured hundreds upon hundreds of such patients, who had been given up by other practitioners to die.

given up by other practitioners to die.

The idea that consumption is necessarily fatal has destroyed more human life than the disease itself.

For all forms of Dyspepsia and Kidney Diseases he tests the urine, for the excesses deposited, which is the a possible plan to ascertain the true cause of disease.

The Dr. can show more certificates of cures, sworn to by patients, than any other physician in America. Not like hundreds of empirical swindlers, he never prepares his medicines until he ascertains the disease rue cause. He has no puffed nostrums that will cure all diseases.

The diseases of Women and Children receive his particular attention.

To Males and Females of Youth and Maturity. Seminal Weakness and Spermatorrhora. It is a melancholy fact that thousands who are suffering under pale and Seminal Weakness and Spermatorrhea. It is a melancholy fact that thousands who are suffering under pale and insatiate disease are victims of secret habit, self abuse, gradually undermining their constitution—the disease institution wrecked, and they become subject only for a hospital or mad-house, unless death comes in as a welcome guest to relive the patient from his suffering, and his friends from the painful evidence of his irregularities and errors. The penalty will not cease with the transgression; the constitution has received the shock, and nature, unaided can not repair the injury. The only escape is found in prompt and proper medical treatment. The earlier this is sought the easier the cure. Generally the first symptoms in males, are noctural and sometimes diurnal emissions. In either sex we find weakness of the stomach, abdomen, back and loins, lassitude, loss of memory, confused ideas, low spirits, timidity, aversion to society, love of solitude, with general debility, and frequently attended with cough and hectic fever. This disagreeable and awful complaint, with all its symptoms, can be relieved and promptly arrested by the Indian Herb Doctor and his new method of cure. He uses an instrument that will arrest the disease instantly, and without any exposure to the patient.
